

# Pilot Project Proposal

Title: Enhancing Public Project Cost Efficiency and Transparency in Nigeria

Submitted by: Snowdon23 Resource Ltd.

## 1. Executive Summary

Snowdon23 Resource Ltd. is a Nigerian consultancy established to improve the transparency, efficiency, and accountability of government projects. Through our initiative, Project Cost Filters, we provide precise cost evaluations for public projects, backed by a secure digital platform that stores, verifies, and monitors each project's lifecycle.

## 2. The Problem

Nigeria continues to face systemic challenges in public procurement and project delivery, including:

- Contract cost inflation and lack of standardised pricing models
- Absence of independent cost verification
- Poor transparency in project tracking
- Limited accountability throughout the project lifecycle

## 3. Our Solution

- Accurate cost benchmarking (MACE)
- Secure digital system for project tracking
- Independent oversight and milestone verification
- Audit-ready documentation

## 4. How It Works

1. Agencies submit proposals
2. MACE is calculated
3. Project is tracked digitally
4. Regular milestone reports and audit logs

## 5. Pilot Scope

- Evaluate 5 to 10 new proposals
- Monitor 2 to 3 active projects
- 3-month pilot duration

## 6. Revenue Model

- Cost Evaluation: 2-5%
- Monitoring: Retainer/milestone billing
- Platform: Subscription or flat fee

## 7. Benefits to Government

- Budget control
- Transparent evaluations
- Reduced abandonment
- Centralised tracking

## 8. Compliance

Supports BPP Act 2007, EFCC, ICPC, SFTAS, and OGP.

## 9. Next Steps

- Endorsement
- Sample project access
- Assigned liaison

## 10. Team

Solomon Adekunle, Toluwalase Lawal, Adedoku Adejare, Tunde Banjo, Srinath Mangalore, Pirre
